

One counterpart for every AI decision.

For six months our network is your standing AI function: **20 hours per month** for architecture, technology selection, code reviews and team mentoring — with a **24-hour response time** when it matters.

THE FRAME

CAPACITY

Fixed allocation

20 h/month

Architecture and code reviews, technology decisions, mentoring for your team.

TERM

Plannable

6 months

The focus is re-aligned with you every month — the frame stays stable.

AVAILABILITY

When it is critical

24 h

Response time for critical issues — you do not wait for the next scheduled call.

INCLUDED IN THE RETAINER

- **Strategic AI roadmap** — quarterly planning sessions with clear priorities
- **Technology selection** — LLM, RAG, vector databases, cloud infrastructure
- **GDPR & regulation** — data protection considered from the start
- **Architecture and code reviews** — before wrong decisions get expensive
- **Team mentoring** — your team learns along instead of becoming dependent
- **Flexible scope** — the monthly focus follows your current questions

HOW THE ENGAGEMENT RUNS

- 01 First conversation**
Goals, system landscape and open decisions — free and non-binding.
- 02 Roadmap session**
A joint quarterly plan: what first, what later, what not at all.
- 03 Monthly rhythm**
20 hours on the agreed focus; critical questions answered within 24 hours.
- 04 Quarterly re-alignment**
The roadmap follows what was learned and where the business goes.

PRICE

Individual quote after the first conversation

The retainer is tailored to your team size, system landscape and target picture. After the first conversation you receive a written quote with a fixed monthly price — no surprises, no add-ons during the term.

The frame above is fixed: 20 hours per month, 6-month term, 24-hour response time.

WHO WE ARE

A freelancer network, not an agency apparatus

Behind dabrock.ai is a network of independent specialists grown over years, each with their own field, coordinated by a shared management and sales function. No office tower, no overhead your budget has to carry.

Since this year a start-up investor has been backing the further build-out; the Spanish company (S.L.) is being incorporated. Until then, the freelancer network invoices in the name of Michael Dabrock. We put this here because you should know it before placing an order, not when the first invoice arrives.

Check us out: our specialists are people with names and track records. The starting point is [linkedin.com/in/michael-dabrock](https://www.linkedin.com/in/michael-dabrock).

You are not buying consulting slides. You are buying decisions that get built.
